

**Empowering Communities in Research - a  
Model for Shared Decision-Making and  
Research priority setting in a rural  
population during a Public Health  
Emergency**

**Margaret Kaseje  
Tropical Institute of Community Health and Development,  
Kisumu, Kenya**

---

Distress, despair

Virus protection

## Inclusive stakeholder engagement in priority setting for research

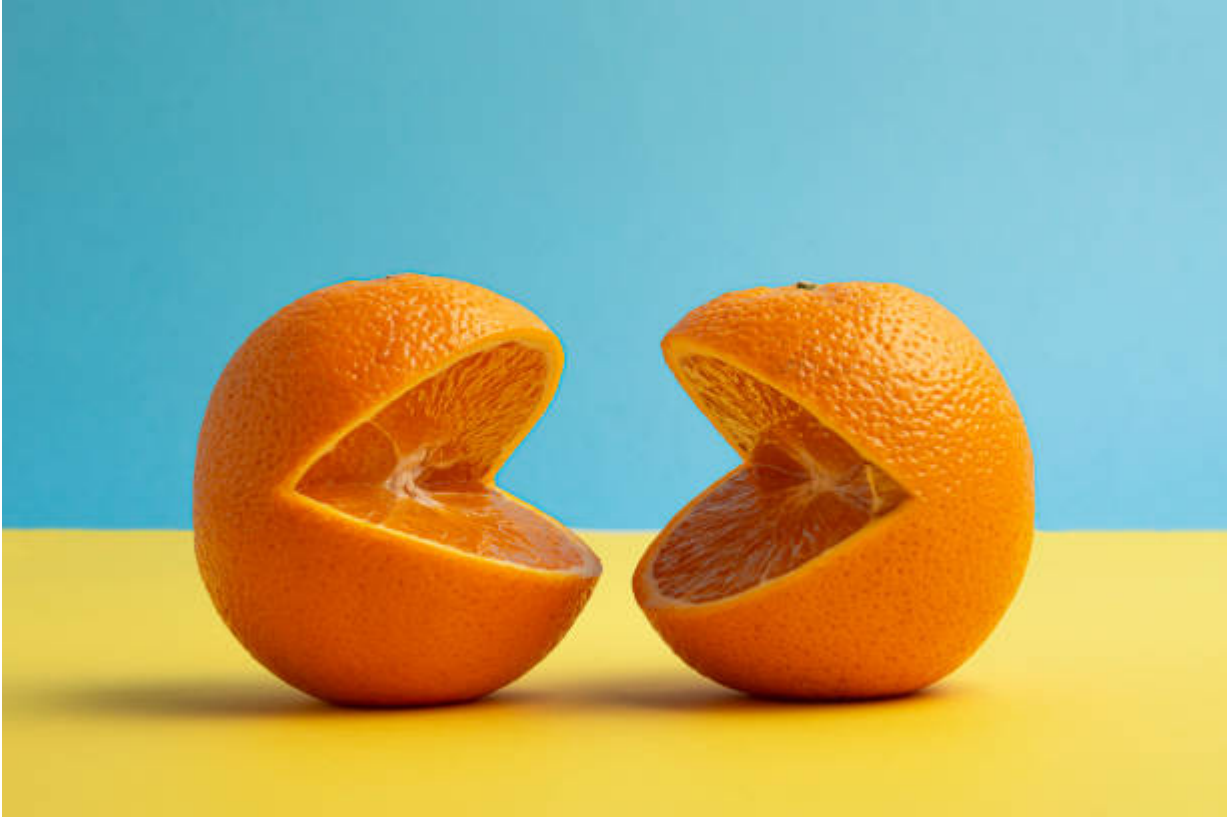

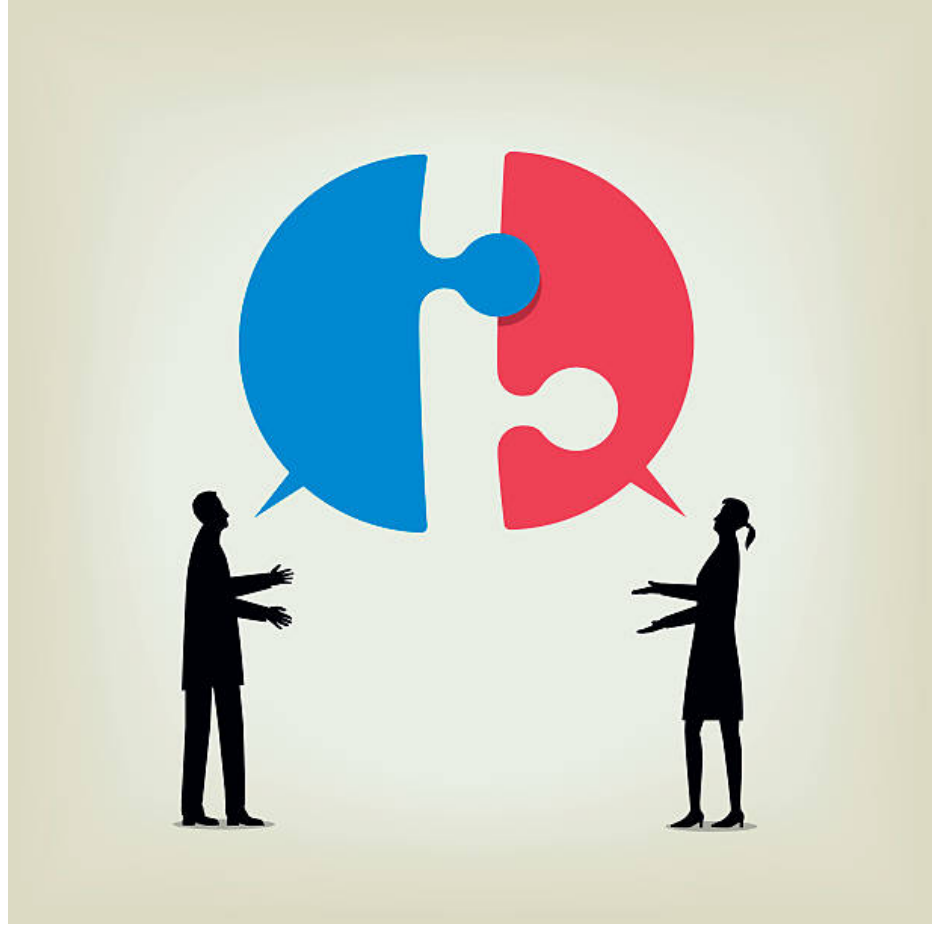

Stakeholders  
(sample)

---

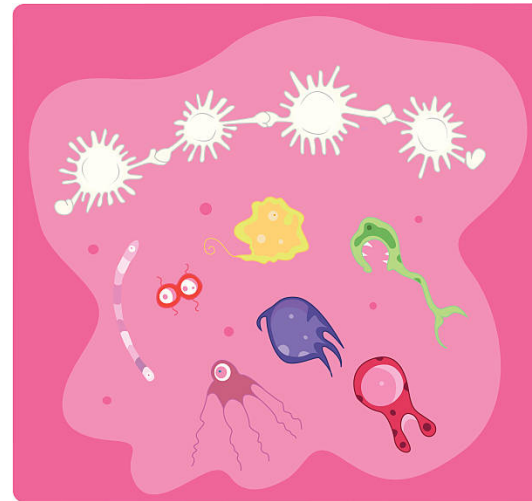

Dialogue

a bunch of bacteria  
trying to get  
through a barrier of  
white blood cells,  
an immune system

It's so comfortable  
here!

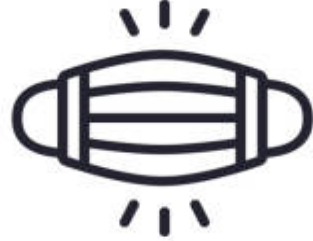

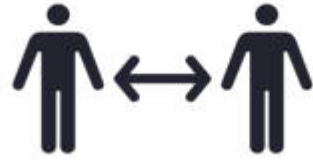

**IMPORTANT**

Stakeholders, each with their individual characteristics, but aiming towards research prioritization
